S1

Workshop 1
 History of Architecture 1
 Project theory 1
 Space geometry 1
 Materials Technology 1
 Mathematics
 Written Expression
 Conference discovery training

S2

Workshop 2
 History of Architecture 2
 Project theory 2
 Space geometry 2
 Materials Technology 2
 Building physics construction
 Written Expression 2
 Conference discovery training 2

S5

Workshop 5
 History of Architecture 5
 Project theory 5
 Structure
 Facilities 1
 Modelisation and simulation 1
 Urban Design
 Urban Geography of housing
 Practical Intership 1

S7

Workshop 7
 Urban and architectural planning
 Structure 3
 Facilities 3
 Roads and Utilities
 Sustainable Architecture and Cities
 Architectural and Urban Heritage
 Practical Intership 3

S8

Workshop 8
 Project management and contracting authority
 Structure 4
 Secondary trades
 Decision support tool
 introduction to research methodology
 Construction and urban planning law
 Ethics and deontology
 Practical Intership 4

Programme des études

S3

Workshop 3
 History of Architecture 3
 Project theory 3
 Construction 1
 Resistance of materials 1
 Computer-Aided Drafting
 Spatial Analysis and Cartography
 Sociology and Anthropology of Space
 Conference discovery training 3

S4

Workshop 4
 History of Architecture 4
 Project theory 4
 Construction 2
 Resistance of materials 2
 Computer-Aided Design
 Surveying Technique
 Anthropology of Space
 Conference discovery training 4

S6

Workshop 6
 History of Architecture 6
 Project theory 6
 Structure 2
 Facilities 2
 Modelisation and simulation 2
 Introduction to Urban Design
 Urban Analysis tools and Methods
 Practical Intership 2

S9

Workshop 9
 Energy performance in buildings
 Entrepreneurship and project management
 Introduction to writing an architecture thesis
 Seminar on architectural current events
 Professional intership

S10

Final Project
 Master Thesis
